

## K. C. BUSINESS MEN COMING NEXT WEEK

Local Organizations Prepare to Receive Big Crowd of Boosters.

### SPEND NIGHT HERE

Stores to Remain Open for Them; Local Event Is Announced.

Elaborate preparations are being made for the entertainment in the city on Monday night, June 5, of the trade excursion delegates of the Kansas City chamber of commerce, an organization which is to make a week's tour of this section of the United States.

One of the features of the entertainment in this city for the visitors will be an open house to be held by the merchants of Tulsa on the night the Kansas City boosters are here.

Secretary Hayes of the relatives association announced yesterday afternoon that plans had been made by members of the association to leave their places of business even until a late hour, giving the visitors an opportunity to call friends in the high news places.

The special train bearing the boosters will arrive in Tulsa over the Frisco at 6:35 p. m. and after being escorted to Hotel Tulsa for dinner they will assemble at the Chamber of Commerce parlors, where the addresses of welcome will be delivered by Mayor Shummons and the president of the local Chamber of Commerce.

#### Here All Night.

The Kansas City boosters will remain in Tulsa all night, leaving early Tuesday morning to continue their journey southward.

At the Chamber of Commerce it was announced yesterday by Secretary Hayes that plans were being made for a reception to be given at Hotel Tulsa Thursday evening as a farewell dinner to the retiring secretary, E. O. Tilburne, and for Colonel Douglas, who is Mr. Tilburne's successor. The special guests on this occasion will be the mayor and chairman of the board of commissioners.

Students Lay Aside Their Studies to Enjoy Summer Vacation.

## THREE MONTHS' REST

All Public Schools in Tulsa Will Close Today; Teachers Leave.

Seven thousand pupils and more than two hundred teachers in the Tulsa public schools were freed yesterday for the summer vacation, and most of the instructors will leave today for home or toward school.

The pupils did not attend school yesterday morning and were given their report cards in the afternoon. The high school students will receive their grade cards this afternoon, after which the junior's bags will be buried for the 1<sup>st</sup> months.

The exact enrollment of the school system will not be known for several days when the final reports of the various buildings are totaled but it is understood there has been some increase during the past semester.

Every available schoolroom in the city will be used this summer. Superintendent Oberholzer predicts that there will be an increase of one thousand during the opening week next fall. It is impossible to tell where these new youngsters will be housed as the building appropriation is strained.

The high school building will not be idle during the summer as a summer school will begin June 12, lasting for six weeks. This will be for elementary school children and a tuition of \$7.50 will be charged.

Almost without exception the high school teachers will attend universities this summer. Miss Lorraine Landenberger, Miss Mildren Henderson, Miss Helen Hamill, W. H. Haake and J. Turner Horner will attend the University of Chicago. Miss Bea Farrell will go to the University of Wisconsin.

Miss Carrie Woolsey and J. J. Johnson will attend the summer session of the University of Kansas.

## EXECUTION BLOCK FOR DOG LOAFERS

Bartlesville Wages Unrelenting Campaign Against Canine During Summer.

Special to The World.

BARTLESVILLE, Okla., June 2.—The weather has sent Bartlesville into another crusade—rounding up all worthless dogs, requiring good dogs to have tags. The commissioners and owners that all dogs must be tagged. To see that the crusade is properly carried on, the city commissioners have appointed an official dog catcher, who has started work already, and a score of dogs have been rounded up and placed in the pound. It remains with the dog catcher to say whether a dog is a good or bad dog.

After a stay of four days in the deathhouse the dogs will be put to the knife and their bodies cremated in the new city incinerator. Bartlesville people have so long they have given little heed to the rapid growth of the canine family, and now the city has a big job on its hands rounding them up. With the advent of hot weather, it is feared dogs will go mad and attack people. A champion boxer has been appointed as official dog catcher.

PRICK OF SPLINTER GIVES BLOOD POISON

Aften Woman Is at Point of Death. Two Operations in Effort to Save Life.

Special to The World.

APTOS, Calif., June 2.—Mrs. Otto Beals of this city is suffering from a pricking of the blood poison which started from a small scratch which about five weeks ago shot a splinter into her finger. At the time of the injury it was thought trifling and very little attention was paid to the scratch. Later the finger became infected and was amputated and then removed. The removal of the finger did not stop the poison, though, and Tuesday a second amputation was made of her arm just below the elbow. Mrs. Beals was not expected to live the first 24 hours after the operation, but is improving and may recover according to reports this morning. Mrs. Beals is the wife of a railroad man and is the mother of five children, the youngest being yet a baby in her arms.

CONCRETE ROAD FOR MARCH OF PROGRESS

Bartlesville Plans to Further City by Building Modern Highway.

Special to The World.

BARTLESVILLE, Okla., June 2.—Bartlesville has decided to pave a portion of the Dewey road leading through the city park a distance of one mile. A twenty-foot concrete road is to be built. Work is to start at once.

With the action of the city commissioners in ordering this stretch of highway built comes the announcement that steps will be taken in the near future to build a concrete road between Bartlesville and Dewey, a distance of four miles. This road is on the route of the proposed national highway to be built from St. Paul to Galveston.

GERMANY'S "LANDSCHAFT"

Bar Credit System That Has Millions in Bonds Outstanding.

The strong withstand the heat of summer better than the weak.

Old people who feel feeble and younger people who are weak will be strengthened and enabled to go through the depressing heat of summer by taking regularly Grove's Tasteful Chic Tonic. It invigorates and enriches the blood and builds up the whole system.

The Altered Sign.

He was running a summer hotel and to keep departing guests from forgetting their belongings he put up a helpful sign: "Stop! Look! Have you left anything?"

Of course the drummer had to get away with it.

Here's the result:

"Stop! Look! Have you anything left?"

What's the use of trying to be helpful?

As It Often Happens.

"Who is that queer looking little man who resembles a divinity student?" asked the visitor to the newspaper office.

"That is the sporting editor," replied the reporter.

"And why is that coarse looking brute with the red nose and the loud mouth?" asked the visitor.

"That is the religious editor," was the reply—Louisville Post.

A Bargain.

"Sir, will the beagles, will you give a poor old blind man a dime?"

"But," protested the citizen, "you can see out of one eye."

"Oh, well," relented the beagle,

"make it a nickel then."

## WANT PLAYGROUND OF DEATH REMOVED

Hollis Citizens Implore Commission to Compel Road to Build Crossing

Special to The World.

OKLAHOMA CITY, June 2.—Citizens of Hollis, Harmon county, have implored the corporation commission to require the Wichita Falls & Northwestern railroad to construct an overhead crossing at a point near the town of Hollis. The petition is signed numerously by citizens of the town and introduces itself to the commission by invoking the aid of Almighty God in order to secure and perpetuate the blessing of liberty, to promote our mutual welfare and happiness, we, the citizens of the Harmon county, do hereby petition the honorable corporation commission to hear and consider our petition, etc.

Hearing has been set for June 16 at Hollis. Some mention are the supreme court handed down a decision in a Guthrie crossing case which limited the power somewhat of the commission to order railroad crossings. The commission regarded the decision as vitally affecting the jurisdiction of its power over public service utilities, and asked for a rehearing. The matter is now before the court.

Bartlesville Plans to Further City by Building Modern Highway.

Special to The World.

BARTLESVILLE, Okla., June 2.—Bartlesville has decided to pave a portion of the Dewey road leading through the city park a distance of one mile. A twenty-foot concrete road is to be built. Work is to start at once.

With the action of the city commissioners in ordering this stretch of highway built, comes the announcement that steps will be taken in the near future to build a concrete road between Bartlesville and Dewey, a distance of four miles. This road is on the route of the proposed national highway to be built from St. Paul to Galveston.

GERMANY'S "LANDSCHAFT"

Bar Credit System That Has Millions in Bonds Outstanding.

There may be a better rural credit system than Germany's landschaft, but at any rate none has a longer record of successful operation. Since it is difficult to adopt the landschaft system to the needs of the United States has been introduced by Senator Shepard of Texas. It is worth while to give it renewed consideration.

The system has been in successful operation in Germany for 14 years.

One day Frederick the Great was discussing the landschaft with Heinrich, a Berlin merchant, who was his financial adviser. They agreed that fundamentally the prosperity of a country depended on the prosperity of its farmers.

Out of the desire to help agriculture by soundly facilitating rural credit grew the landschaft.

"Oh, well," relented the beagle,
